“We produce innovative,
unique and stylish products...”

About Us & Our Guarantee

We create handmade, elegant, unique & bespoke, timber doors, benchtops & custom joinery...

Finer Timber Doors & Joinery is an Australian family business, which has been manufacturing quality cabinet timber doors and benchtops since 1994.

We are a proud, Australian, family-owned business and we pride ourselves on our exceptionally high standard of craftsmanship.

We have a passion for timber and believe our knowledge can provide customers with the right choice when deciding on timber and style of their cabinetry doors.

Through unique craftsmanship, we produce quality timber doors and speciality joinery while providing flexibility for personal taste. We also manufacture custom joinery & front doors that can create the ultimate first impression.

With experienced staff and state-of-the art machinery completes our product of exceptional standard and lasting quality.

We strive to provide lasting value through our high standards in production and provide the care and detail to meet your requirements.

"We have a passion for timber"

Our Guarantee

Finer Timber Doors & Joinery is an all Australian manufacturer, producing all products on site. We guarantee our timber products against defects by design, workmanship and/or the use of faulty raw materials, fair wear and tear excluded.

Colour and grain variations occur naturally in timber and are not considered a defect. All timbers are colour matched by hand to achieve a consistent result as is humanly possible.

Structural failure due to excessive alteration or abuse is not covered by warranty.

The guarantee does not extend in any way to workmanship or damage that has occurred during the handling and delivery. All our products are individually checked before leaving our premises.

Finer Timber Doors & Joinery will agree to repair or replace at its discretion. Unfinished doors found to be defective within the meaning of this warranty and is limited to the purchase price of the originally supplied doors.

Natural Timber Colours

Each piece of timber is unique

Finer Timber Doors & Joinery provides a wide range of timber species to assist you with your personal requirements.

The timber colours shown are an indication only. Due to timber having a common variation in colour, you will not receive the exact colour that you see.

Sustainability of our Timbers

Our timbers are sourced from suppliers who identify environmental sustainability as a principle factor in any current or future operations in the forest products industry.

All of our Australian Timbers are sourced from sustainably managed and PEFC Certified Temperature Forests.

Timbers from overseas are sourced principally from forests with international classification.

Our Eco Essence Range of Doors

Our new range of doors manufactured in reconstituted veneer provides a blend of beauty, sustainability and versatility, while being environmentally friendly!

Unlike natural timber veneers, recon veneers are free from imperfections such as knots, splits and holes – providing a consistent colour, pattern and grain. You have the flexibility to choose from a wide selection of veneer colours, allowing for a perfect match to your home's architectural style.

All doors are supplied in their raw state unless you specify a polished finish. This allows you to choose the right level of shine and character for your doors, ensuring they fit seamlessly into your home.

Contact our office for further information.

Available in a wide range of premium reconstituted veneer colours:

Also available in our standard timber veneer range, common species include: Tasmanian Oak, American Oak, Blackwood, NFG Messmate & European Oak.

Our range is sourced from responsibly managed PEFC & FSC certified plantations.

Reconstituted veneer goes through a more complex manufacturing process, it uses natural renewable sources. Is the perfect solution! It is a type of man-made timber veneer.

Our new range of doors manufactured in reconstituted veneer provides a blend of beauty, sustainability and versatility, while being environmentally friendly!

Custom-Crafted Timber Benchtops for your Kitchen and Bathroom

Benchtops: Immersive Beauty Tailored to Your Style.

Immerse yourself in the inviting warmth, captivating charm, and enduring elegance of our Solid Timber Benchtops. These custom-crafted masterpieces effortlessly create an organic ambience in your kitchen or bathroom, reflecting your refined lifestyle and personal taste.

YOUR LIFESTYLE EMBODIED IN TIMBER

Our Solid Timber Benchtops go beyond their functional purpose; they become a true embodiment of your lifestyle. As the centrepiece of your kitchen, bathroom, office or laundry, these benchtops seamlessly integrate into your daily life. Visit our showroom to explore the tactile and visual allure of our range, ensuring your final choice resonates with your aesthetic preferences, lifestyle and the character of your home.

THE ART OF CRAFTSMANSHIP

Craftsmanship lies at the heart of our work. With a deep understanding of timber and an unwavering commitment to quality, our seasoned experts guide you through the entire process—from colour selection to the final polish. We ensure that your Solid Timber Benchtop becomes a masterpiece that combines exceptional craftsmanship and timeless style.

TRANSFORMATIVE INTERIORS, UNFORGETTABLE STATEMENTS

Our comprehensive service goes above and beyond. We offer bespoke edging, joining, cut-outs, polishing and staining, ensuring that your benchtop not only fits your home but transforms it into an unforgettable statement. Discover the transformative power of a Finer Timber Doors & Joinery benchtop and experience the remarkable difference it can make in your kitchen.

Benchtop Profiles

All our benchtops are manufactured from sustainable sourced timbers

Your taste and requirements are unique, which is why we offer a range of edging profiles to choose from. However, if you have a special mould or unique design in mind, please let us know. We have the expertise to create the perfect finish that is tailored to your style and preference, adding a distinctive touch to your kitchen.

Cap Mouldings

We stock our range of decorative cap mouldings that are available in the most common of timber species. We can machine in any timber that is available upon order.

If you have a particular cap mould to suit your style, we can create your custom moulding and make it to your requirements. We manufacture several common designs of cap moulding profiles.

Skirting & Decorative Mouldings

A decorative skirting to finish your room with style!

We can create the ultimate finish to your home, by providing you with a beautiful colonial decorative finish. These mouldings can be used as a skirting mould where the wall meets the floor or as a decorative trim around frames and windows, architraves, dado mouldings, mantle pieces and more.

We also can produce general purpose mouldings, that include edging and quad moulds that can be made in a variety of decorative configurations and in a number of many different sizes.

Front & Internal Doors

"We know & love Timber"

Front doors...
can create the ultimate
first impression...

Hand crafted to the
finest quality!

Our Doors are custom made to your measurements
and choice of any size, style and timber.

Our experienced team will help provide the
recommend choice of timber for your front door.

Our solid timber doors are made from a range of
timbers that are sustainably sourced and designed
for strength, durability and weather resistance.

We can manufacture the right design combinations
for your project, including:

Modern & Contemporary – “modern simplicity”

Traditional & Heritage – “continue to impress”

French & Hamptons – “elegant & classy”

Bespoke Designs, including barn style doors.

All our doors we manufacture
are Australian made.

We Supply Only.
No Hardware or Installation.

Custom Joinery

Bespoke manufactures of solid timber products.
Our passion is TIMBER... but not only for doors & benchtops!

We love providing doors & benchtops and have a real passion for producing custom joinery for walk in pantries, bathrooms, walk in robes, laundries, mantle pieces, libraries, desks, bookcases, commercial joinery and more.

In fact, we have over 20 years experience, producing high quality custom timber joinery while

manufacturing designs to accommodate all types of tastes! Our quality craftsmanship and experienced staff can create amazing timber pieces whilst meeting your budget and personal taste.

Being custom-made, we can add your desired detail to your piece to help enhance personality to your home.

Timber Veneer & Plywood

Timber Veneer is thin slices of timber that are generally glued onto core panels, called substrates to create flat sheets. These sheets are then used to manufacture doors, cabinets, wall panels & joinery.

Choosing Timber Veneer

There are many factors to consider when choosing the perfect timber veneer for your project!

Appearance

We supply an extensive collection of the best available colour, grain, texture and uniformity.

Colour

We have a comprehensive range of species that is available to select from. Each timber species has its unique characteristics.

Source

Our supplier, sources both local and international veneer to ensure we have the unique natural beauty of real timber.

Cut to Size

Our standard veneer sheets come in 2400 x 1200 x 19mm thick. We cut and edge to any size required. Larger sheets can be ordered at your request, however please be aware there will be longer waiting times.

We cut to size any veneer of your choice, including reconstituted veneers. Unlike natural timber veneers, recon veneers are free from imperfections such as knots, splits and holes. Reconstituted veneers are consistent in colour, pattern and grain. This makes them ideal for covering large areas such as doors, wall panels and cabinetry.

Colour Match

We offer the service of colour matching to your doors.

Important

Be sure your Timber Veneer is away from exposure to moisture & direct heat.

2 Pack Clear - Polyurethane Coatings

The perfect clear finish.

Here at Finer Timber Doors & Joinery, we take the time to understand what the client is wanting to achieve, while recommending the perfect clear finish to suit your project.

A two-pack polyurethane finish, forms an impenetrable protective film over the surface of the timber, giving it a higher level of protection and, therefore more durable while requiring less maintenance than an oiled timber product.

We only use Ilva Polimeri Coatings, which is one of the largest timber coatings manufacturers in Europe and in the world producing only premium quality!

A variety of finishes available

We only recommend a Two Pack Finish.

Matt: 0%, 10%

Semi Gloss: 60%

Satin: 30%

Gloss: 80%

** We can match any existing gloss level. This product produces a hard surface top coat with excellent results. Outstanding versatility and exceptional chemical and physical resistance. Exceptional results leaving top coats unaltered.*

Recommended Finishes

Ilva - A polyurethane clear two pack finish which is very hard wearing, with exceptional chemical and abrasion resistance to really preserve your benchtop.

Exceptional sealing is essential to prevent an abrupt and excessive moisture movement to and from the timber. Benchtops must be envelope sealed ie. top, bottom, edges and ends. Pay particular attention to the inside of cut-outs, especially the end grain.

Timber is a natural product, therefore will expand and contract. Movement is quite normal, usually being only minimal.

FSC - Approved.

timber stains

2 Pack Paint

Let us transform your project into something brilliant!
We only use a 2 pack paint with a high quality finish everytime.

We offer kitchen companies, cabinet makers, builders & home renovators and more a professional 2 pack paint application.

We take the time to understand what the client is wanting to achieve, while we recommend the perfect finish.

No job is ever too small or too big!

We are committed to finishing your job on time and within budget!

Colours and Finishes

2 Pack allows you the freedom of selecting any colour available – our clients use Dulux's vast selection to find the exact tint they prefer.

2 Pack is also available in several finishes: matt, satin, semi-gloss, full gloss, textured and metallic gloss.

all our work is guaranteed

** 2 Pack offers a hard and durable finish making it less prone to scratches and wear. Smooth feel and appearance with a resistant to abrasion. Low maintenance option that will last you for a very long time. A 2 Pack finish will not peel off, nor will it show edging. Two Pack also offers you the luxury of being able to replace a single door should any damage ever occur, whereas most laminates and vinyls do not. Extensive colour range and colour accuracy. We can match any existing colour and gloss level.*
